Many libraries also provide youth programming where meals can be incorporated. By serving summer meals, libraries can help to combat hunger among children and teens in their communities. While most libraries utilize a federally funded program to serve meals, it is also possible to serve meals without this support. Come learn how your library can feed kids in the summer!

When Patrons Cross the Line: Addressing Sexual Harassment in Public Libraries

A recent national survey revealed that 67% of library employees have experienced sexual harassment by patrons but most never report these incidents to their supervisors and rarely discuss it with their colleagues. Because this is a topic that is rarely discussed, it means that staff, managers and administrators are not properly prepared to respond to these incidents. This presentation will shed light on this difficult topic by defining sexual harassment, identifying barriers related to recognizing/reporting, and encouraging a discussion on solutions to empower library employees at all levels. Get ideas on what to say in the moment and how to introduce this topic at your library to help maintain the safe and supportive work environment we all deserve.
